Community

Our goal with this business directory is to generate a powerful business network within our community. We encourage you to support local businesses and professionals who are part of Summerfield. All businesses listed have a Summerfield family connection; most are owned by Summerfield parents.

This is an opportunity to expand, increase and grow your business—and a great way to support and strengthen our community. Think of our community any time you shop, use professional services or dine out.

Special thanks for your contributions to the Summerfield Community Business Directory:

Anthroposophically Informed Counseling for Children and Adults

I am a Licensed Clinical Social Worker with training in Anthroposophic Psychology. Inspired by the works of Rudolf Steiner on the physical, soul and spiritual development of the human being, I offer unique insight into the struggles adolescents, teens and adults encounter on our journeys to becoming whole and satisfied people. While we can't change difficult situations of the past, I can help you and/or your child focus on what challenges the past has brought and guide you and/or your child towards transformation. I approach this by leading you and/or your child toward developing the capacities of thinking, feeling and willing through cultivating a rich inner life, making healthy environmental choices and creating a positive path towards healing. I am also a Waldorf informed parent of two and can assist you in creating an environment that supports your family in facing the challenges of raising children today.

Loving Attention

Being alone never suited our Mother. It's probably why she had so many kids! Mom had asked us to stay in her home, but when we found her too depressed to eat and take care of herself, we knew it was time to act. Now she laughs again. We can see she is happy once more.

SERVING SONOMA COUNTY SINCE 1988

Serving Summerfield Waldorf Families since 2007

"What I like best about Gina Martinelli is that she's not a "salesperson"; she's more of an advisor. She listens to what you need and provides her honest, professional opinion about various properties. It's not about the sale. As a matter of fact, I called Gina numerous times about houses I'd seen on MLS and she actually talked me out of even looking at them because she knew they were not a good fit for us. With her expertise and extensive knowledge of Sonoma County, Gina knows whether properties are next to railroad tracks, or in an unsafe neighborhood, or whatever. Gina knows her stuff!

Thank you, Gina, for your positive attitude and patience and your refusal to let us settle for anything less than the perfect home."
